

PARTNER SPOTLIGHT PROGRAM • PROPOSAL

TrackonAI for the IMEAA Ecosystem.

Trackon Software FZCO proposes a Partner Spotlight Program through which IMEAA member companies gain discounted access to TrackonAI, a cloud-native CTRM purpose-built for the soft-commodities trade. In exchange, IMEAA receives a co-branded technology partner that strengthens the member-value proposition across the IGC and GAFTA ecosystem.

The ask in one line. IMEAA members get an SME-friendly grain-trade CTRM at meaningful partner discounts, paired with a co-marketing partnership that brings TrackonAI to the IMEAA ecosystem and reinforces IMEAA's position as a digital-enablement catalyst for its members.

The product: IMEAA Spotlight Grain Edition

A pre-configured TrackonAI tenant, ready to trade on day one. Standard TrackonAI requires customer configuration. The IMEAA Spotlight Edition ships pre-loaded with:

- **Grain contract templates** (GAFTA 48, 49, 64, 80 starter set, ready to copy and customize)
- **193 country import rulesets** activated and configurable
- **WhatsApp approval workflows** out of the box
- **Sanctions screening** on counterparties at creation (OFAC, UN, EU, UK HMT and 130+ lists)
- **Vessel intelligence** integrated in the shipment journey (port calls, ETA, ownership, flag)
- **Multi-lingual UI**: EN / FR / TR / ES / PT / DE; Arabic on the roadmap
- **MCP integration**: Claude and ChatGPT access to live tenant data with per-user permissions and full audit trail
- **24-hour go-live** for IMEAA members

Pricing — Subscription Bouquet

Tier	IMEAA Founding-50	IMEAA Standard	List equivalent	Discount vs list	Users included	Branches	Shipments / mo included	Overage	AI Credits / mo	Document Storage	Workflows
Spotlight Starter	\$199 / mo	\$249 / mo	\$447 / mo	55% / 44%	Up to 3	1	15	\$5 / shipment	2,000	5 GB	Up to 5
Spotlight Professional	\$799 / mo	\$999 / mo	\$1,495 / mo	47% / 33%	Up to 5	Up to 3	50	\$5 / shipment	5,000	25 GB	Up to 25
Spotlight Enterprise	Contact us	Contact us	Custom	Custom	Unlimited	Unlimited	Volume	Negotiated	Custom	Custom	Custom

Additional users beyond bundle

Spotlight Starter: \$49 per additional user / month. Spotlight Professional: \$99 per additional user / month. Members who consistently exceed the bundle headcount are natural upgrades to the next tier or to Spotlight Enterprise.

Founding-50 promotion (urgency for the launch window)

The first 50 IMEAA companies to enroll lock the Founding-50 prices for 24 months. After 50 members are enrolled, IMEAA Standard pricing applies to new members. The cap protects unit economics and gives IMEAA a tangible reason to push hard during the launch window.

Why the shipment cap exists

Each tracked shipment carries an external-API cost of approximately \$2.50 (vessel intelligence and sanctions screening). The included-shipment cap covers typical SME usage. Above the cap, the \$5 overage covers cost with a healthy margin. The structure keeps Spotlight pricing sustainable across heavy users.

Headline discount. Up to **55% off list price** at the Spotlight Starter tier for the founding 50 IMEAA members, plus a meaningful discount at every other tier. Defensible, capped, and protected by usage-based overages.

What IMEAA brings

The Founding-50 and Spotlight pricing is unlocked by IMEAA's distribution commitments. Without them, IMEAA Standard pricing applies at most.

1. **Newsletter feature:** TrackonAI introduced to the IMEAA ecosystem via the monthly newsletter (feature article plus a recurring listing for the launch window)
2. **Three co-hosted webinars per year:** TrackonAI and IMEAA, targeted at member SMEs, recorded and distributed across IMEAA channels
3. **Co-branded landing page** at imeaa.org/trackonai (or similar) with a direct sign-up flow
4. **Featured booth or speaking slot** at IMEAA-DMCC 2027 and other major IMEAA-organized events
5. **Direct introductions** from IMEAA leadership to the top 100 grain-trading member companies
6. **Channel awareness** across GAFTA, IGTC, and IGC where appropriate, leveraging the MoU framework

What Trackon brings

1. **The Spotlight Grain Edition tenant**, pre-configured as described above
2. **24-hour go-live** for any IMEAA member
3. **IMEAA Partner badge** on the platform UI and on member dashboards
4. **Dedicated WhatsApp and email success channel** during the Founding-50 wave
5. **Co-marketing assets:** case studies, social posts, and a banner ad pack ready for IMEAA channels
6. **Roadmap voice:** a quarterly product briefing and a feature-request channel for IMEAA

Revenue model options — to be discussed

The discount structure above can be paired with a referral fee, or replaced with one. We are flexible. Three structures to discuss:

Structure	Member price	IMEAA earns	Suited to
Discount only	Spotlight prices	Channel value, brand strength	Maximum member adoption
Referral fee only	List prices	20% of first-year subscription revenue	Direct IMEAA revenue
Hybrid (recommended)	Spotlight prices	15% of first-year subscription revenue + channel value	Aligned incentives both sides

Proposed timeline

Milestone	Target
Offer review and direction call	Within 2 weeks
Light MoU drafting (2 pages)	Following 2 weeks
Co-branded landing page live	30 days from MoU signing
Founding-50 wave opens	Within 60 days of MoU signing
First IMEAA newsletter feature	Aligned with Founding-50 wave open
First co-hosted webinar	90 days from MoU signing

Open question for the direction call

Preferred revenue model. Which structure best suits IMEAA's preferred operating model: pure discount, pure referral fee, or hybrid? The pricing matrix above is built on the discount frame. The other two structures change the per-member price but not the bouquet design.
